1 [Revenue analysis of a family of ranking rules for keyword auctions](#)

Sébastien Lahaie, David M. Pennock

June 2007 **EC '07**: Proceedings of the 8th ACM conference on Electronic commerce**Publisher:** ACM
 Full text available: pdf(192.67 KB) Additional Information: [full citation](#), [abstract](#), [references](#), [index terms](#)

Keyword auctions lie at the core of the business models of today's leading search engines. Advertisers bid for placement alongside search results, and are charged for clicks on their ads. Advertisers are typically ranked according to a score that takes ...

Keywords: keyword auctions, search engines, sponsored search

2 [Asymptotically optimal repeated auctions for sponsored search](#)

Nicolas S. Lambert, Yoav Shoham

August 2007 **ICEC '07**: Proceedings of the ninth international conference on Electronic commerce**Publisher:** ACM
 Full text available: pdf(264.30 KB) Additional Information: [full citation](#), [abstract](#), [references](#), [index terms](#)

We investigate asymptotically optimal keyword auctions, that is, auctions which maximize revenue as the number of bidders grows. We do so under two alternative behavioral assumptions. The first explicitly models the repeated nature of keyword auctions. ...
